

Case Reports in Shoulder and Elbow Surgery is a specialized section of the [Orthopedic Surgery Case Reports Journal](#) dedicated to publishing high-quality, peer-reviewed case reports and case series related to disorders of the shoulder and elbow. This section aims to advance clinical knowledge, improve surgical techniques, and share real-world experiences in the management of complex, rare, and challenging shoulder and elbow conditions.

Scope and Focus

This journal section focuses on the diagnosis, surgical and non-surgical management, postoperative outcomes, rehabilitation strategies, and complication management of shoulder and elbow disorders. Special emphasis is placed on innovative surgical approaches, complex trauma, revision surgeries, sports-related injuries, and conditions requiring multidisciplinary care.

Areas of Interest

The journal welcomes submissions in, but not limited to, the following areas:

- Shoulder and elbow fractures and dislocations
- Rotator cuff injuries and reconstruction
- Shoulder instability and labral pathology
- Elbow instability, stiffness, and contractures
- Arthroscopic and open shoulder and elbow procedures
- Sports-related shoulder and elbow injuries
- Degenerative and inflammatory joint disorders
- Nerve injuries around the shoulder and elbow
- Pediatric and adolescent shoulder and elbow conditions
- Revision surgery and management of failed procedures

Types of Manuscripts Accepted

- Case reports
- Case series
- Clinical images in shoulder and elbow surgery
- Rare and unusual shoulder or elbow conditions
- Novel surgical techniques and arthroscopic innovations
- Complication management and salvage procedures
- Rehabilitation outcomes and return-to-function reports

Clinical and Educational Value

This section emphasizes **case-based learning** and practical clinical insights. Authors are encouraged to highlight diagnostic challenges, decision-making rationale, surgical pearls, intraoperative findings, postoperative rehabilitation, and long-term functional outcomes to enhance educational value for practicing surgeons.

Peer Review and Publication

All manuscripts submitted to **Case Reports in Shoulder and Elbow Surgery** undergo a rigorous double-blind peer-review process to ensure scientific quality, ethical integrity, and clinical relevance. Accepted

articles are published under the **Orthopedic Surgery Case Reports Journal** with open access, enabling rapid and global dissemination of knowledge.

Why Publish With Us?

- Dedicated focus on shoulder and elbow subspecialty
- Rapid, transparent, and fair peer-review process
- Open-access publication model for maximum visibility
- Emphasis on surgical techniques and clinical outcomes
- Strong educational value for orthopedic surgeons and trainees

Online Submission

Authors are requested to submit their manuscripts using our Online Manuscript Submission Portal: <https://www.orthosurgerycasereports.org/submit.html> (or) may also submit via email to: editor@orthosurgerycasereports.org.
